WHAT'S NEW IN THE BUSINESS???

Well, there was just a very long time no BUSINESS to read!
Well, the guy who printed it until now was bored of doing
this, and so I (TMB) decided to do it together with my friends
in DOMINATORS, and so I did ...

This Issue of the BUSINESS is just a little test, in the future
the main-editors of this mag will be following groups:

On 64:	Arcana	On Amiga:	Pulsar
	Dominators		Scoopex
	WWE		Dominators

And some more sub-editors! Well, I think this is a good stuff
of text-writers!

If you are interrested to write some articles for this mag, you
should contact us under:

"BUSINESS", Po.Box 25, A-1217 Vienna

Call: Austria: (0)222-83 49 362 (Stephan)

only on Saturday and Sunnday from 12 pm to 9 pm (12 - 21)

OK!

See you all ...

HUNGARIAN SITUATION

Hi! My name is DONOR and I am a member of SOLDIERS. I will write something about Hungarian situation...

I am a member of one of the big crews in Hungary. Only a few great teams working here in Hungary, but we are fairly acting here. I know better the things in the capital of Hungary. Here in the capital of Hungary is only one big (and some little) computer-club:

Every friday open the doors for all the members of it. There are the best teams present, like: QUALITY, FBI-CREW, SOLDIERS, REDS, IDIOTS, TRI, WW, and lots others ...

*Computers present are: C64, Amiga, C16, Spectrum, PC, ...
(Everything where you can play games!)*

There can everybody (lamer!) buy up to 10-12 whole disks with hot (?) stuff ... (Enough stuff up to next friday!)

*There are many action and it's very cool ...
It's the REAL Hungarian computer-life!*

See you next time ...

DONOR/SOLDIERS

Dominators Party

On 25/11-89 the meeting of most Dominators took place at Xerox and Ohm's flat in Copenhagen, which wasn't big enough for the occasion. On the day we had an agreement to meet at 3 o'clock in the afternoon and, believe it or not, most of the people who had agreed to participate were there on schedule, and Hulkster (from C-64) was there early enough to join me in preparing the gigantic X-mas cold buffet table. First we got acquainted, there were plenty of people who had never seen each other. Then we ate a bit from the ten different courses, and so the real party started.

Since Xerox and I are in the AmigaDivision we started off by showing Red Sector One's MegaDemo, together with a lot of Soundtracker music. For the occasion Peter, our new music man at Amiga showed us what he can do, and that was really promising, I liked it and so did most of the people at the party, there were one or two which I did not talk it over with, but the five songs he made in the one week he had had Soundtracker are all just perfect and will be released soon.

Also worth mentioning is that we have started a cooperation with Kefren's grafix man Spyro, he has agreed to make some Gfx and logo's and stuff like that, we look forward to a closer cooperation in the near future, also we count on using some of Spyros Gfx (additional Gfx by Panther from C-64 division) very soon.

When we thought we had seen enough demos and the like we played a few games of Super Oswald, a great game by danish coder Torben Larsen, that was quite difficult (especially when the contestants were a little drunk). Through the night we discussed several things we could do which would help us to do faster crack's and productions, one of which was to keep in touch so we can always get help and info from an insider, another was that Hulkster could maybe get originals to both machines, we will have to see what happens there. Another possibility is to buy originals fast in England, crack it here (so Psycho has something to do), make great music and intros and spread it all over Europe through our contacts all over the world, and then in the end sell the original quickly in Denmark at a reasonable price, now this is only at the thought experiment stage, but it's an attractive idea, and we also have a software selling firm to contact, TurboSoft, in England. Earlier this year Dominators had a magazine called Business, they are currently working at getting it on it's feet again, with a (MAYBE) release date in January or february, this is up to you out there, if you want to write an article or make something for the best cracker's magazine ever to be printed, then send me your article and I will make it ready for printing, I will also make contact with the different people who have shown any interest in the magazine with

regard to finding somebody who would like to print the magazine, TMB in AUSTRIA has been mentioned as a possibility, if you have any suggestions then let me know.

Trilogy Denmark has some new software and we recived it later the same evening, they got Super Oswald from us. We'll try to make a closer cooperation between Trilogy and Dominators on the Amiga. Finally we agreed to supply goffy (Formula II Sysop and Amiga member) with the very latest software, so our Danish board will be as up-to-date as we who swap are.

After nightfall Viking took over the hard job of entertaining the rest of us with wierd faces, odd stories and a lot of garbage talk, this manic state lasted untill, there was nothing more to eat, drink and smoke. The last guests left at about 6.30 a.m.

Last minute info:

The 3 guys from NF (Nordisk Film), came with the Coolest Gfx ever to be released through Dominators, they will start working on some X-mas stuff too.

At the party was one Up-Front member, together with 13 Dominators.

And we had a great time.

Present from the AmigaDivision were: Blaze, Cosmo, Ohm, Psycho, Tron, Viking, Xerox and our new musician, who hasn't found a proper handle.

Present from the C-64 Division were: Cosmo, Hulkster, Koidid, Mitch, Panther, Tricket.

BUSINESS

- news from the underground -

Yep, guys! It's time to party again!

The 13th of April at 8⁰⁰ am
we open the doors to another huge party where, as usual,
everybody's invited!
The fun will go on until
The 16th of April at 8⁰⁰ am
when we close the doors and go home to sleep...

The party is in a large school called:
Vårby-skolan which is located in Vårby, just
outside Stockholm, Sweden.

This is why YOU will be there...

- * The place is an entire fuckin' school, so there'll be room for at least 800 people.
- * There's a burger-place, a pizza joint and a drugstore within 50 meters.
- * A complete store will be built up inside the school, which'll sell all kinds of stuff. Including food, coke, disks and sweets.
- * It's only about 100 meters to the subway, which can get you into Stockholm City in 10-15 minutes.
- * There will of course be a demo-competition. (In which HORIZON will not participate.)
- * Coding-competition! For the first time ever, we'll arrange a competition that proves the skill of the coders in your group. Read more about the rules on the next side.
- * Of course the winners will be elected by voting. No fuckin' jury!
- * Exclusive trophies and plaquettes for the three winners in each competition.
- * No invitations needed, just get your ass there.
- * No CENSOR-members will be allowed entrance! (A guarantee for a successful party...)
- * All the Swedish top groups will be there, and people from West Germany, Finland, Norway, France, Denmark, England and Holland have shown interest in coming!
- * Cheaper entrance and subsidized prizes in the store for Huddinge Corner members.
- * We'll be there...
